

STEM Education & Professional Training

Technology in the San Francisco Bay Area: A Hands-on STEM Job

Offering 29 programs in STEM (Science, Technology, Engineering, and Math) fields, California State University, East Bay is situated in the technological center of California - the San Francisco Bay Area. According to Forbes magazine, "In the immediate future no place will challenge the Bay Area as the mecca for technology and STEM employment." STEM extensions of OPT promote the ability of international students to gain valuable and practical STEM experience that supplements the knowledge gained through their academic studies. By applying their academic knowledge in a STEM OPT extension, students will be in a better position to begin careers in their fields of study. Given the shortage of qualified STEM workers in the Bay Area, Cal State East Bay's location just a 30-40 minute drive from San Francisco and Silicon Valley is ideal for students looking for practical training in the field. F-1 students in good standing and studying one of the STEM fields offered at Cal State East Bay (listed at right) are eligible to apply to work in the U.S. for up to three years following the conclusion of each higher degree level.

STEM Undergraduate Degree

Biochemistry, B.A., B.S.
Biological Science, B.A., B.S.
NEW! Business Analytics, B.S.
Chemistry, B.A., B.S.
Civil Engineering, B.S.
Computer Engineering, B.S.
Computer Science, B.S.
Construction Management, B.S.
NEW! Data Science, B.S.
Environmental Science, B.S.
Environmental Studies, B.A.
Geology, B.A., B.S.
Industrial Engineering, B.S.
Mathematics, B.S.
Physics, B.A., B.S.
Statistics, B.S.

STEM Graduate Degree

Biological Science, M.S., M.A.
Biostatistics, M.S.
Business Analytics, M.S.
Chemistry, M.S.
Computer Science, M.S.
